Subject: Recycled Content Certification of Paperboard

We are pleased you have placed your confidence in Caraustar as we seek to be your *First Choice for Recycled Paperboard Products and Services.*

Thank you for your inquiry regarding our recycled paperboard content.

Please be assured that the paperboard supplied by Caraustar's Mill group is 100% Recycled. This recovered paper is material that would otherwise go to a landfill or incineration. In any given order the paperboard produced is always a mixture of both post-industrial and post-consumer recovered fiber. The post-consumer portion varies depending on fiber quality and availability, but will average around 35% of the total fiber volume.

It is our intention that this packaging certification may guide you for the end-use selection of our products. Should you need further information, please do not hesitate to contact me: (253) 627-1197 or by e-mail: mark.lindstrom@caraustar.com

Thank you for your continued confidence in Caraustar's paperboard products.

Sincerely,

Mark Lindstrom
General Manager
