

Idaho Pulp and Paperboard  
803 Mill Road  
Lewiston, ID 83501

## MICROWAVEABILITY CERTIFICATE

We received your request for a statement regarding the use of Clearwater Paper Corporation paperboard in microwave ovens.

Although we are aware that some of our customers have successfully used our paperboard products for a microwave oven end use, we have issued no guaranty as to the suitability of our paperboard for that particular end use. We are unaware of any FDCA - CFR regulations that apply specifically to paperboards in microwave ovens.

As stated in our FDA compliance letter, all food packaging paperboard, as shipped from the Idaho Mill, is in compliance with the FDCA as amended, and all applicable food additive regulations. In particular, these paperboards comply with 21 Code of Federal Regulations sections 176.170, 176.180, 176.260, and 109.30a(9).

We hope this information is helpful.
